SOUTHWICK NURSERIES

LOCATION.

I am situated on the line of the New Haven & Northampton division of the N. Y., N. H. & H. R. R., 5 miles south of Westfield, Mass., junction of the Boston & Albany R. R.; 100 miles west of Boston, and 100 miles north of New York.

Goods by express reach New York within five hours after shipment, and the cost of carriage to all points from here is comparatively light. Freight goes through to New York without change.

TERMS.

Prices are in American money. 5 at 10 rates, 50 at 100 rates, 500 at 1,000 rates. Packing at cost.

One dollar is equal in value to a trifle more than four English shillings, four German marks, or five francs.

All bills will be due upon receipt of goods, unless by special agreements. Unknown parties should give good references.

Remit by draft on New York, or by Post Office Order on Southwick, Mass. *Foreign Remittances by International Post Office Orders on Westfield, Mass.*

The packing season commences as soon as the plants can be got at in spring, about April 10, and lasts about six weeks, and in autumn as soon as the plants are ripe, mostly from September until December.

COMMONWEALTH OF MASSACHUSETTS.

STATE BOARD OF AGRICULTURE.

OFFICIAL CERTIFICATE No. 1.

Boston, Aug. 3, 1903.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY that I have this 3d day of August, 1903, completed the inspection of the nursery stock of Edward Gillett, grown at Southwick, State of Massachusetts, and find it to be apparently free from the San Jose Scale and other injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1, 1904.

(Signed)

H. T. FERNALD, Inspector.

Inspected by Deputy H. E. HODGKISS.

"MIELLEZ'S REVELATION" IN LILY OF THE VALLEY.

It is of extraordinary size and vigor, of the most exquisite fragrance, and does well under all conditions and in all sorts of soils, growing just as well in full sun as partial shade. It is extremely hardy, and while not increasing quite as fast as the common kinds, is still of good increase. It is well to cover it in December with a good coat of barnyard manure—cow or horse—green is just as good as old. Leave it in the spring to serve as mulch. The Massachusetts Horticultural Society awarded it a "First-Class Certificate of Merit" on May 22, 1897. \$1 per 10, \$5 per 100.

FERN BOWER AT THE GILLETT NURSERIES.

FERNS.

The Ferns of New England are among the most charming of our *hardy perennials*. They are so easily grown that every park or yard may have them. If you wish to beautify a dark nook shut in by buildings or trees, where flowers will not thrive, try a few ferns and note the change. You can select from my list of about 40 kinds those suited for almost any situation that will sustain plant life.

Special Collection of Ferns.

The following collection of Ferns are made up to help in selecting for special wants, and should go by express or freight.

No. 1.—(\$3.00) For Open Sun Culture.

This collection is desirable for the open border and, all being rather tall, can be grown as single specimens or for massing with or without flowers.

6 Onoclea struthiopteris
6 Osmunda Claytoniana,

24 Dicksonia punctilobula,
6 Lygodium palmatum.

No. 2.—(\$3.00) For Dry, Shady Places.

These Ferns will grow in a dry, shady place. Plant them where flowers as a rule do not thrive.

12 Aspidium acrostichoides,
12 Aspidium marginale,

12 Dicksonia punctilobula,
12 Osmunda Claytoniana.

No. 3.—(3.00) For Moist, Shady Places.

This collection is very fine and easily handled in moist, shady places, also for large rockery.

6 Adiantum pedatum,
6 Aspidium cristatum,
6 Aspidium acrostichoides,
6 Aspidium spinulosum,
6 Aspidium marginale.

6 Asplenium thelypteroides,
6 Asplenium Filix-femina,
6 Phegopteris hexagonoptera,
6 Woodwardia angustifolia,

No. 4.—(\$3.00) For Wet, Open Ground.

These Ferns are very useful for border of a lake or low, wet ground.

12 Aspidium Thelypteris,
12 Onoclea sensibilis,

12 Osmunda regalis,
12 Woodwardia Virginica.

No. 5.—(\$3.00) Low Evergreen Ferns for Rockery in Shade.

This is a beautiful collection of low-growing Ferns and easily managed.

12 Asplenium ebeneum,
12 Asplenium Trichomanes,
12 Comptosorus rhizophyllus.

12 Polypodium vulgare,
6 Woodsia obtusa.

No. 6.—(\$3.00.) Low Evergreen Ferns for Dry, Rocky Ledge.

12 Asplenium Trichomanes,
12 Cheilanthes vestata,

12 Polypodium vulgare,
12 Woodsia Ilvensis.

One-Half Any One of the Above Collections for \$1.75.

You will notice that some kinds are named in more than one collection. Such seem to thrive equally well in the localities named.
